

Let's take a side by side look at bottled water
versus an
IH2O Purification System

COST

\$400/Year
SPENT ON BOTTLED WATER
(PER AVG. HOME)
BUSINESSES SPEND EVEN MORE!

\$0/Year
FILTER CHANGES INCLUDED
WE CHANGE YOUR FILTERS
1-2 TIMES PER YEAR
TO MAINTAIN YOUR WATER

HASSLE

BIG HASSLE
CARRYING IT FROM THE MARKET
& DEALING WITH DELIVERIES
EVERY SINGLE MONTH OR WEEK

NO HASSLE
ONE TIME INSTALLATION
& **UNLIMITED PURE WATER**

WASTE

50 BILLION BOTTLES
TONS OF PLASTIC WATER BOTTLES
ACCUMULATE EVERY SINGLE YEAR
IN OUR LANDFILLS & OCEANS

0 WASTE
NOT A SINGLE WATER BOTTLE
LEFT ANYWHERE

CARBON

700 MILLION TONS
CARBON CREATED PER YEAR
IN DELIVERY & MANUFACTURING
OF THE BOTTLED WATER INDUSTRY

NONE
ONCE YOUR SYSTEM IS SET-UP
WE STOP BY 1-2 TIMES PER YEAR

WHEN YOU
COMPARE, IT'S NOT
EVEN CLOSE

LESS EXPENSIVE
NO WASTE IN OUR
LANDFILLS & OCEANS

NO CARBON FOOTPRINT
NO HASSLES

BOTTLED WATER VS IH2O PURIFICATION

**\$175 /
MONTH**

Ultra Clean Water

Frosty cold for chilled beverages

Steaming hot for coffee, tea, soups and hot chocolate

Promote a healthier lifestyle with more water consumption

Healthier alternatives to soft drinks with sugar

Unlimited Supply

Made fresh everyday

Chills faster than water coolers

No bottles to carry or store

No more wasted pots of coffee Saves time and money

BOTTLED WATER VS IH2O PURIFICATION

4 STAGE ULTRA FILTRATION

SEDIMENT FILTER

Sediment filters maximize the effect of water purification by eliminating rust, sand, silt, and pipe turbidity that is found in water supplies across the globe.

PRE-CARBON FILTER

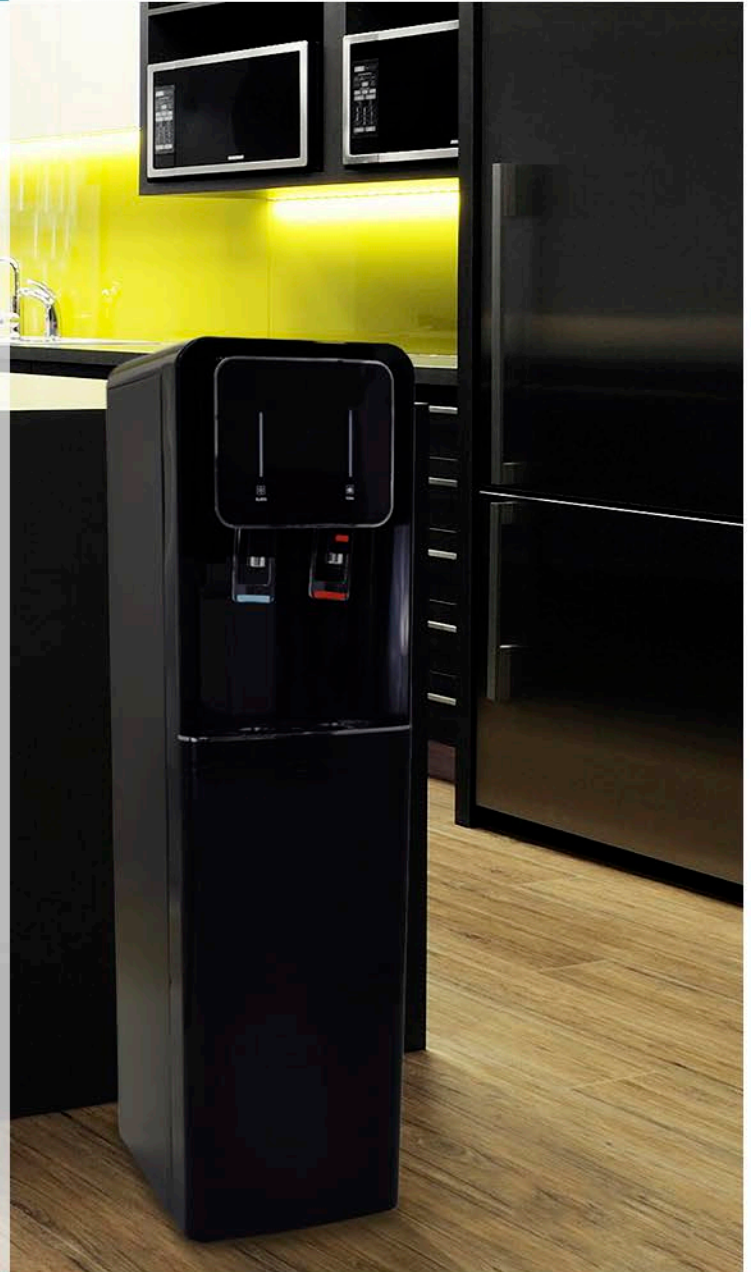

This filter uses NSF Certified granulated carbon media. It remove Chlorine, THM's, Benzene, Pesticides, Insecticides, and other organic chemical contaminants that may be present in municipal water supplies. It uses a high-tech absorption process, which is unsurpassed in the industry.

ULTRA FILTRATION MEMBRANE

The Ultra Filtration Membrane filters water down to 0.002 microns, and is highly effective at removing bacteria, organic chemicals, and other waterborne microorganisms.

ALKALINE CARBON BLOCK FILTER

This filter utilizes a specially blended carbon block media with coral sands, and bio-ceramic filtration technology. It creates water that has amounts of negative ions, Magnesium, as well as Hydrogen. The PH levels of the water are naturally increased to levels between 8.5 and 9.5, which has numerous health benefits.

FULL 1 YEAR WARRANTY

International H2O systems are warranted to be free from manufacturing defects for two years from the date of purchase. If any part is found to be defective during the warranty period, International H2O will repair or replace the part.

CARTRIDGES - FULL 90 DAY WARRANTY

If a cartridge is found to have a manufacturing defect or becomes clogged within 90 days of purchase, we shall replace it free of charge. Simply return the cartridge to our Customer Service Department.

BOTTLED WATER VS IH2O PURIFICATION

BOTTLED WATER FOR YOUR EMPLOYEES NOT SUCH A GOOD IDEA:

Potential for Contamination

Delivery Interruptions

Heavy Bottles to Lift

Clutter of Bottles

High Cost

BETTER THAN BOTTLES

Unlimited fresh water -ice cold
or steaming hot

No Delivery Interruptions

No Heavy Bottles to Lift

No Clutter of Bottles

Ultra Clean 4 Log Water

Become Green & Reduce your
Carbon Footprint

EASY & DELICIOUS COLD BEVERAGES

Lemonade
Iced Tea
Iced Coffee

Powdered Drinks
Frozen Juices

HOT BEVERAGES AT YOUR FINGERTIPS

Better Tasting

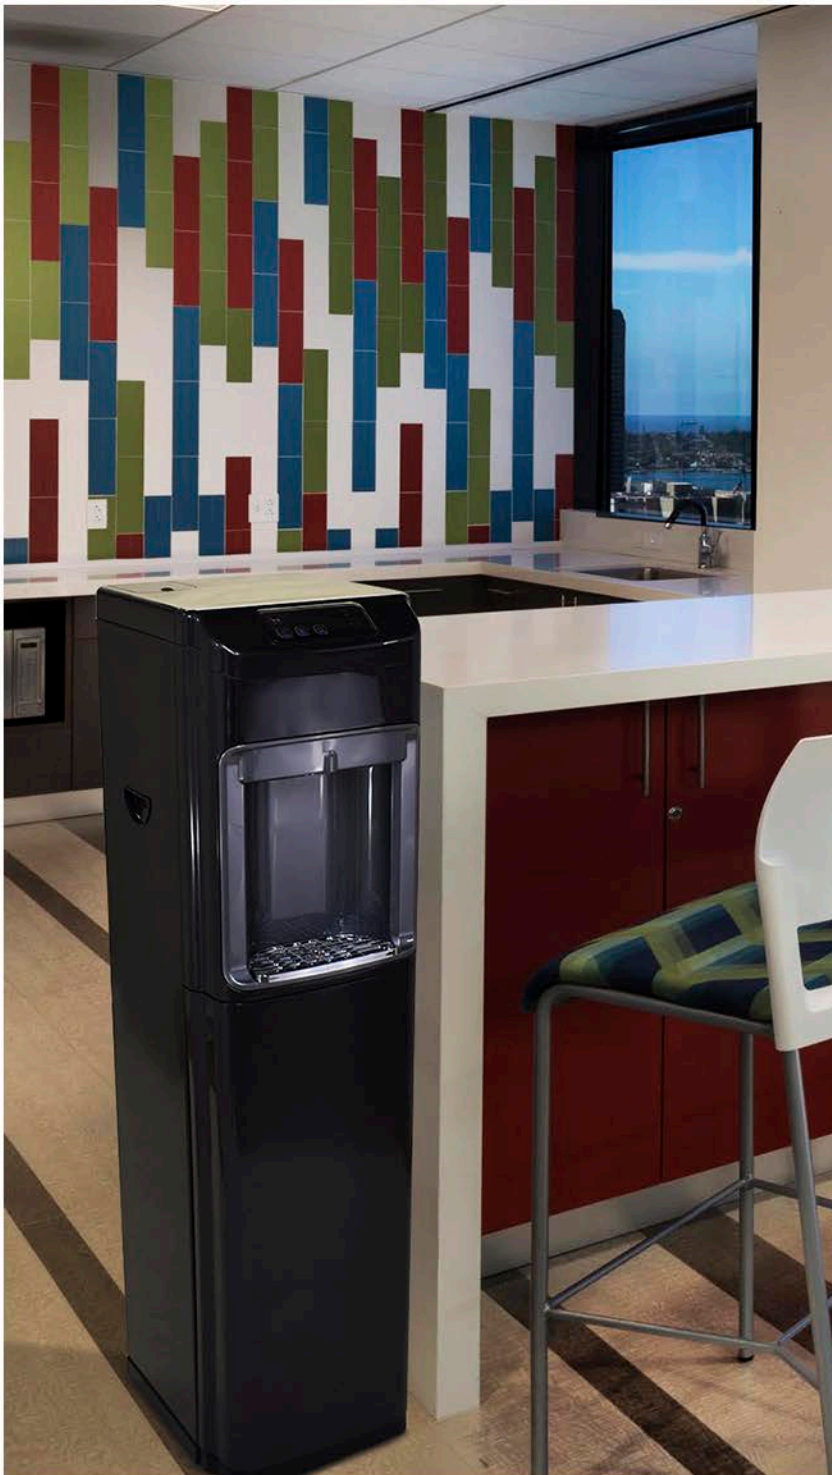

No Waiting

No Wasted Coffee

Hot Tea in Seconds

Instant Soup Anytime

Real Hot Chocolate
